B (Optional)		Purchasing and distribution of biodegradable bags		
	5			
	6	Total Project Cost (4+5)		

Addendum No. 2 to RFP 16-07

Questions Previously Omitted from Addendum 1

The following questions were previously submitted prior to the Q/A deadline and were omitted in error.

- 1.) What size bags are you looking for? 12 gallon to line the bins you are providing? 8 gallon for personal use in people's kitchens?

We're looking for 3-8 gallon bags that are for the people's kitchens—NOT liners for the 12 gallon container.

- 2.) You mention 30 bags per household - but the pilot lasts for 65 weeks. Would it make more sense to estimate for and provide 65 bags for households?

We are looking to provide bags for approximately six months of the one-year program. That would be a minimum of 1 bag/week, or roughly 30 bags. We are open to proposals that, based on experience, suggest a higher number of bags per household for six months.
